| GENERAL INFO             | TECHNICAL INFO                              |
|--------------------------|---------------------------------------------|
| Colour : CRISTAL         | Nominal film thickness : 550 $\mu$ m        |
| Shape : Rectangle        | Tolerance in weight : +10/-10%              |
| Material: PP             | Tolerance centre cutting : +/- 0,5 MM       |
| Length : 108 mm          | Volume : 250 cc                             |
| Width : 82 mm            | Specific feature : <input type="checkbox"/> |
| Depth : 52 mm            | Specific material property :                |
| Area : 0 mm <sup>2</sup> | Code DoC : PP Cristal                       |
| Nominal weight : 3,9 G   | Min temperature : 4                         |
| Compartments : 1         | Max temperature : 120                       |

All products are manipulated in normal conditions. A high impact ( f.i. chock) at low temperatures, can break and/or partially splinter the material. It is the responsibility of the buyer to ensure that the packaging is suitable for the destination and intended use. More specific information see "Declaration of Compliance"
